EDUCATION

Completed Bachelors Of Technology IN Computer Science From Shriram Institute Of Science And Technology

10/2022 – 06/2026
JABALPUR

Rajiv Gandhi Proudlyogiki Vishwavidyalaya

Hi, I'm Vedant Tripathi a B.Tech & student at Shriram College

Institute of Technology with a strong interest To Keep Enhancing The Skills And Improve The Structure of Experience ...

Improving logic building for placements

And I enjoy turning ideas into smooth, interactive user experiences By Tech skills using clean and responsive code but I'm always open to learning new technologies and collaborating on real-world projects that's give strength to the Real World Task And Gain Experience

SKILLS

MERN (MongoDB, Express.js, React.js , Node.js) Python , PHP , SQL And PorteSQL , AWS Cloud Hosting , Web Sockets And E2E Works Through Layers- Presentation , Application , Database Layer

Frontend Development (HTML5 , CSS3, JAVASCRIPT) Tailwind CSS , TYPESCRIPT , UI/UX (FIGMA) , BOOTSTRAP For The Basic Frontend Development In Modern Term I Consider BSON (Binary JSON) And Mongoose Libraries

CERTIFICATES

- TCS Codevita All India Global Rank #4128 in 2025
- Mern-Stack Internship Certificate

AWARDS

AI HACKATHON #2RANK IN DELHI WITH TEAM ALGOSPHERE

This Award Is Presented By Mr.Aditya Bharti (The Founder Of ShubhShanti Bats)

PROJECTS

Face Recognition Attendance

08/2023 – 09/2023

A **Face Recognition Attendance System** is an AI-powered application that automates tracking the presence of people (students, employees, or visitors) using computer vision. Instead of traditional, contact-heavy methods like physical logs, ID card swipes, or fingerprint scanners, this system accurately registers attendance simply by having a user look at a camera.

Crime analysis and prediction (Using ML)

Crime analysis and prediction is a systematic approach for identifying the crime. This system can predict region which have high probability for crime occurrences and visualize crime prone area. Using the concept of data mining we can extract previously unknown, useful information from an unstructured data. The extraction of new information is predicted using the existing datasets. Crimes are treacherous and common social problem faced worldwide

OFFER LETTERS

ORACLE FRONTEND FIGMA DESIGNER

I Got This Offer From Oracle By The Reference Through My Paternal Aunt To Join The Internship Duration Of 11 Month

Product Manager In Codephine

I Got This Offer From Mr. Aman Patel To Attend The Internship Duration Of 3 Month
